

# SPECTIS MOULDERS

[www.SPECTIS.com HAS A NEW LOOK!](http://www.SPECTIS.com)

**Functionality, searchability** and **related items** were the main three areas of focus in designing and building our new website.

We want to help you and your customers find products that will fit the project needs and style. Direct your customers to our website to search specific products or full catalogue sections. The very top search bar can be used anytime to type in a specific product code but there are also many new search features!

|                                       |   |
|---------------------------------------|---|
| Product                               | <input type="text"/>                              |
| Height                                | <input type="text"/> Min <input type="text"/> Max |
| Width                                 | <input type="text"/> Min <input type="text"/> Max |
| Projection                            | <input type="text"/> Min <input type="text"/> Max |
| <input type="button" value="Search"/> |   |

Scroll down to find a **search** field of minimum/maximum dimensions to pinpoint products within your requirements. All products within those parameters will appear. If you want only Mouldings, simply click the 'Mouldings' button **after** the dimension search which will narrow your results.

Or, try searching by using **Keywords** of texture or style. The list is immediately beneath the dimension search field on the far left.

When clicking on a product within your search findings, all the information of that item appears. Under the

product details, are **Related Products**. Items with similar texture or style have been chosen. Again, simply click a picture to bring up the details of the item of interest.

To have access to any CAD drawing or PDF of our Spectis products, log in to your account for all downloads.

When scrolling to the very bottom of the page, we have a **Support** section containing helpful information from install to the benefits of using polyurethane products.

## SUPPORT

- [Frequent Questions](#)
- [Installation Instructions](#)
- [Specifications](#)
- [Table/Blade Calculator](#)
- [Why Polyurethane](#)

As always, keep in mind that if you do not find the exact item you want, we can always **customize** to your exact size or style. Simply call your local sales representative or the toll free number below to speak to our friendly in-house customer service personnel. They all have many years of experience with Spectis products and would love to help you.

If by chance you notice some qwerk with our website, our design team is continuing to tweak a few items behind the scenes, so you will see the website improve more and more over the next few weeks.

Have a wonderful, relaxing summer. Here's to many new ideas and projects that we can **dream, design and build** together!

**Contact us for all your customization requests at 1-800-685-9981.**

**Follow us on Facebook and Instagram for pictures, information and projects.**
