

SPECTIS has Perfect Products for OUTDOORS

Polyurethane properties:

- Ultraviolet rays do not affect properly coated products
- Can be **painted** to perfectly fit into any garden design
- **Moisture resistant!** Spectis polyurethane has a closed-cell structure which provides protection from most solvents and renders it almost completely hydrophobic. It will not rot!
- **Mildew resistant!** All Spectis polyurethane products resist the growth of mildew and fungus and provide no nutritional value for other organisms such as small rodents.
- Spectis polyurethane products are handled in the same manner as wood millwork so they are easy to use.

Shipping our products:

Great care is taken to ensure that all products arrive at your address in perfect condition. Many customers compliment us on the crates we build for shipping out larger orders. In fact, many of our crates are re-used on site long after our products are already installed.
