

SHUTTERS

Louvered & Paneled Shutters

SHL & SHP Style

Enhance your window opening with our shutters. We offer a louvered and paneled version shutter.

Wood shutters speak of tradition and authenticity and we provide exactly that in polyurethane material. This architectural composite material is for those who like the look and feel of wood, but without the maintenance.

Add your own custom color to create a unique look. All of our shutters are crafted by Spectis Moulders and arrive factory primed, so you can finish them with any high-quality exterior paint in any color.

Our shutters offer great durability, and will not rot, crack or split.

Installation is easy and these decorative shutters add beauty and character to any building.

We offer a wide range of sizes and can create any size you may require for the next project.

Board & Batten Shutters

The simplest of shutter styles also happens to be one of the most versatile. You will find board-and-batten variations enhancing window openings on house styles from colonial to farmhouses or cottages.

We offer a wide selection of board and batten shutters and can also make any custom sizes for your needs. These board and batten shutters can be stained or finished in any color you like.

Styles

- Rectangular (2 or 3 battens)
- Elliptical top (2 or 3 battens)
- Arched top (2 or 3 battens)

Facts

- Weathered cedar texture
- Boards and battens 4" wide with 1/4"W x 1/8"D v-groove
- Middle batten equally spaced between top and bottom batten
- Radius of arched top is equal to the width
